Production delays SITRANS FC Coriolis meters

Ladies and gentlemen,

The Siemens factory for the SITRANS FC Coriolis flowmeters in Soenderborg, Denmark closed on Sep 30th, 2018. All efforts were taken to prepare a seamless transition to our new production setup. Unfortunately, we are currently experiencing unexpected project delays in transferring the production to our factory in Haguenau, France, which have caused delays in complying with confirmed lead times given to our customers. As a consequence we are also not able to reliably confirm new orders within the usual response time.

Please be assured, that Siemens is working with highest priority on solving the current challenges with the new setup. For any questions regarding your orders, please consult your local SIEMENS sales representative.

We apologize for the inconvenience caused.

Sincerely yours,

Siemens Aktiengesellschaft
