

## Compatibility WinCC V7.0 SP2 { 08/2010 }

### WinCC V7.0 SP2 contains the following in the delivery package

- Microsoft SQL Server 2005 SP2
- SIMATIC NET Edition 2010 (V8.0) { 06/2010 }  
for 32-bit Windows 7 Ultimate, Professional
- SIMATIC NET Edition 2008 SP2 (V7.1) { 08/2009 }  
for 32-bit Windows XP Professional, Windows Vista Business, Ultimate,  
Windows Server 2003 and Windows Server 2008 Standard

### WinCC V7.0 SP2 can be run in Microsoft operating systems

- Windows 7 (32-bit) Business, Enterprise, Ultimate (single-user station / client)
- Windows XP Professional SP3  
(server with max. 3 clients, no options, no Engineering on client, single-user station / client)
- Windows 2003 Server R2 SP2 (server / single-user station / client)
- Windows 2003 Server SP2 (server / single-user station / client)
- Windows 2008 (32-bit) Server SP2 (server / single-user station / client)

### WinCC V7.0 SP2 is released with Microsoft Internet Explorer V8.0, V7.0 and V6.0 SP2

Further information is available at: <http://support.automation.siemens.com/WW/view/en/21927773>

## Connection overview WinCC V7.0 SP2 { 08/2010 }

WinCC – Channel DLL	Description
<b>SIMATIC S7</b>	
SIMATIC S7 Protocol Suite	Channel DLL for S7 Communication via MPI, PROFIBUS, Ethernet ISO Layer 4 and Ethernet TCP/IP
<b>SIMATIC S5</b>	
SIMATIC S5 Ethernet Layer 4	Channel DLL for S5 Communication via Ethernet ISO Layer 4 and Ethernet TCP/IP
SIMATIC S5 Programmer Port AS511	Channel DLL and drivers for serial communication with S5 via AS511 protocol at Programmer's Port
SIMATIC S5 Serial 3964R	Channel DLL and driver for serial communication with S5 via RK512 protocol
SIMATIC S5 PROFIBUS FDL	Channel DLL for S5 Communication via PROFIBUS FDL
<b>SIMATIC S505</b>	
SIMATIC 505 Serial	Channel DLL and driver for serial communication with SIMATIC S535/545/555/565/575 via NITP/TBP protocol
SIMATIC 505 Ethernet Layer 4	Channel DLL for S505 Communication via Ethernet ISO Layer 4
SIMATIC 505 TCPIP	Channel DLL and driver for S505 Communication via Ethernet TCP/IP
<b>Controllers from other manufacturers</b>	
Allen Bradley - Ethernet IP	Channel DLL and driver for communication with Allen Bradley controllers via Ethernet TCP/IP with Ethernet IP protocol
Modbus TCPIP	Channel DLL and driver for communication with Modicon controllers via Ethernet TCP/IP with Modbus TCP/IP protocol
Mitsubishi MC TCPIP	Channel DLL and driver for communication with Mitsubishi controllers via Ethernet TCP/IP with Mitsubishi MC TCP/IP protocol
<b>Manufacturer-independent</b>	
OPC Client for DA, XML DA	Channel DLL for OPC communication; WinCC can acquire data from OPC server applications
OPC Server for DA, XML DA, A&E, HDA	Server applications for OPC communication; WinCC provides process data for OPC client
PROFIBUS FMS	Channel DLL for PROFIBUS FMS
PROFIBUS DP	Channel DLL for PROFIBUS DP

### Connection to controllers from other manufacturers

OPC (OLE for Process Control) is recommended for connection to controllers from other manufacturers.

Further information is available at: <http://www.opcfoundation.org>

WinCC supports these standards:

- OPC Data Access 2.05a
- OPC Data Access 3.00
- OPC XML Data Access 1.00 (Connectivity Pack / Connectivity Station)
- OPC HDA 1.20 (Connectivity Pack / Connectivity Station)
- OPC A&E 1.10 (Connectivity Pack / Connectivity Station)

**Communication components for PG/PC to SIMATIC for WinCC V7.0 SP2 { 08/2010 }****In the delivery package: — SIMATIC NET CD Edition 2010 (V8.0) { 06/2010 }****for 32-bit Windows 7 Ultimate, Professional****(delivery package of SIMATIC NET CD Edition 2010 incl. SIMATIC NET CD Edition 2008 SP2)****— SIMATIC NET CD Edition 2008 SP2 (V7.1) { 08/2009 }****for 32-bit Windows XP Professional, Windows Vista Business, Ultimate,  
Windows Server 2003 and Windows Server 2008 Standard**

Industrial Ethernet	SIMATIC S5 Ethernet Layer 4	SIMATIC S5 TCP/IP	SIMATIC S7 Protocol Suite	SIMATIC 505 Ethernet Layer 4	SIMATIC 505 TCP/IP <sup>1)</sup>	Order no.

**• System connection possible**

1) Via any interface board with NDIS 3.0 interface; no separate communication software required.

2) License SOFTNET-S7 Lean Edition 2010 / Edition 2008 included in the delivery package of WinCC V7.0 SP2.

3) For upgrade packages see table above on page 4: SIMATIC NET Upgrade Packages

The licenses supplied with SIMATIC NET Edition 2010 / Edition 2008 are also valid for all versions as from and including SIMATIC NET Edition 2006.

The SIMATIC NET Edition 2010 / Edition 2008 SP2 software is not supplied with WinCC V7.0 SP2;

the SIMATIC NET Edition 2008 HF1 software is supplied with WinCC V7.0 SP1; the SIMATIC NET Edition 2007 HF1 is supplied with WinCC V7.0

**Communication components for PG/PC to SIMATIC for WinCC V7.0 SP2 { 08/2010 }****In the delivery package: — SIMATIC NET CD Edition 2010 (V8.0) { 06/2010 }****for 32-bit Windows 7 Ultimate, Professional****(delivery package of SIMATIC NET CD Edition 2010 incl. ### Expanding existing plants with WinCC V6.x and V7.0 and SIMATIC NET driver software

If driver software up to and including SIMATIC NET Edition 2006 (V6.4) is available, you must procure the corresponding SIMATIC NET driver software; the license supplied is downwards compatible up to and including Edition 2006.

If driver software up to and including SIMATIC NET Edition 2005 (V6.3) is available, you must procure the corresponding SIMATIC NET Edition 2005 copying license; the authorization supplied is downwards compatible as from and including Edition 2005 (V6.3) up to SIMATIC NET V6.0.

### SIMATIC NET Edition 2005 (V6.3) Copying licenses
