

## FAQ for SINAMICS DCM

### **Question:**

The cyclic data exchange over Profinet does not function with DCM firmware V1.3. What is the remedy?

### **Answer:**

The cyclic data exchange over Profinet functions after the installation of the SSP DCM V1.3 HF2.

Procedure:

- 1) Install SINAMICS MICROMASTER STARTER V4.3  
<http://support.automation.siemens.com/WW/view/en/26233208>
- 2) Install the SINAMICS SUPPORT PACKAGE for SINAMICS DCM V1.3 HF2  
<http://support.automation.siemens.com/WW/view/en/58707914>

With STARTER V4.3 SP2 and higher, this SSP is already included in the STARTER.

Corresponding tests have been carried out with SIMATIC and SIMOTION
